Construction Compliance Training Center (CCTC) was established by Compacion Foundation and The Hispanic Contractors Association de Tejas and opened in April 2014 to train, educate, and address occupational safety and health problems within the construction industry.

CCTC strives to provide the highest quality hands-on and classroom training possible. At times the demand for certified workers exceeds training capacity, or is required in remote locations. In these situations, our mobile training providers can quickly provide the required training.

- CCTC can schedule any safety training and/or help customize a job specific training for you and your workers.
- We can schedule training's 7-days a week; day and evenings; where dates and instructor(s) are available.
- Instructor can travel to your company or job-site for safety training and/or inspections.
- Assistance with OSHA Citations
- Job Safety Inspections

# Safe Workplaces are Sound Businesses

Pledge to improve workplace safety and health by participating in Safe + Sound Week

## WHY PARTICIPATE?

- Identify and manage hazards before they cause injury or illness.
- Reduce costs of injuries and increase profitability.
- Engage your workers in activities to promote a culture of safety.
- Demonstrate management leadership.
- Show you are proactive about safety.

## GET STARTED!

1. Take the Safe + Sound pledge to make safety a core workplace value.
2. Plan one or more activities during Safe + Sound Week that help you start or improve your safety and health program.
3. Download your certificate and virtual challenge coin to recognize your efforts.

### Good headspace helps make a safe workplace

This year we will provide resources for businesses on mental health and well-being because workplace safety and health extends beyond just physical hazards.

## LEARN MORE

Visit [osha.gov/safeandsoundweek](https://osha.gov/safeandsoundweek) to register and find sample activities and resources.

- Safety Compliance Safety Packages

# Hispanic Contractors Association de Tejas

The Hispanic Contractors Association De Tejas (HCAT) was formed in 1997 to address the needs of one of the fastest growing sectors of the construction industry. HCAT is a member driven organization that promotes and enhances commerce, trade and contracting opportunities for the benefit of Hispanic Contractors. In addition in giving voice to the business and political concerns of its members, Hispanic Contractors Association De Tejas serves the community through its outreach programs. The organization has Associations through the state of Texas and represents more than 5,000 Hispanic contractors in Texas and is committed to developing programs and facilitating the resources needed to help Hispanic Contractors reach their potential. The HCAT members are directly responsible for over a Billion dollars in construction revenue in the State of Texas.

HCAT participates in various safety venues including an established HCA Safety Committee that participates in the USHCA, Safety Alliances with OSHA, QUION, ABC, TEEX, Richland College and the Austin General Mexican Consulate; the HCAT Continuing Education Program where monthly Safety Training and Courses are delivered and in addition the OSHA 10 Hour Marathon program carried out once, twice and if possible three times a year.

In 2005, HCA-DFW was awarded Susan B. Harwood grant # 46F5-HT03 to develop Focus Four training materials for the construction industry. To date, HCAT has developed 8 computers based training programs, 9 PowerPoint presentation training modules, and a bilingual training book. HCAT has successfully worked about 10 (ten) Susan B. Harwood grants in the past. All grant reports and documentation was completed on time and on budget with no delays. In 2010, HCAT was awarded a four-year capacity building Susan Harwood Grant this was used to expand the organizations' safety training programs and awareness of job site safety concerns within the construction industry and to specifically address the safety concerns facing Spanish-speaking Hispanic workers through the creation of a Construction Compliance Training Center (CCTC). In April 2014, CCTC was opened in Balch Springs, TX to train, educate and address occupational safety and health problems within the construction industry.

HCAT in conjunction with OSHA Region VI and Texas A&M Engineering Extension Service (TEEX) and The University of Texas at Arlington, Region VI OSHA Education Center have hosted 1-day OSHA 10-hour Construction Safety Trainings under HCAT's OSHA 10hr Marathon Program throughout OSHA Region VI, averaging 300 participants each marathon. From our initial OSHA 10 Hour Marathon in 2006, there have been 17 marathons and as a result, over 5,848 construction workers (62% Hispanic) have participated and received the OSHA 10-Hour Outreach Card. That is an outstanding number of workers that are now trained in safety for the construction industry in the State of Texas and OSHA Region VI, and saving the construction industry more than \$1 million by offering the training at a nominal cost.

The mission of the Hispanic Contractors Association De Tejas is to promote and support the advancement and economic growth of the Hispanic Contractors in Texas. We are committed to developing programs and facilitating the resources needed to help Hispanic Contractors reach their potential.

# Construction Compliance Training Center

## "Building Bridges to a New Safety Culture"

**Construction Compliance Training Center (CCTC)** was established by Compacion Foundation and *The Hispanic Contractors Association de Tejas* (HCAT) and opened in April 2014 to train, educate, and address occupational safety and health problems within the construction industry.

*CCTC strives to provide the highest quality hands-on and classroom training possible. At times the demand for certified workers exceeds training capacity, or is required in remote locations. In these situations, our mobile training providers can quickly provide the required training.*

**El Centro de Capacitación de Cumplimiento de Construcción** (CCTC) fue establecido por Compacion Foundation y *Los Hispanic Contractors Association de Tejas* (HCAT) e inaugurado en abril de 2014 para capacitar, educar y abordar problemas de seguridad y salud ocupacionales dentro de la industria de la construcción.

*CCTC se esfuerza por ofrecer la más alta calidad de capacitación en aula y manual. A veces la demanda de trabajadores certificados excede la capacidad de formación, o es necesaria en lugares más remotos. De esta manera, nuestros proveedores de formación móvil pueden proporcionar rápidamente la capacitación necesaria.*

### **Need a Job Specific Safety Training or Jobsite Inspections?** **¿Necesita una formación específica de seguridad de trabajo o lugar de trabajo inspecciones?**
