Need a Job Specific Safety Training or Job-site Inspections?

- CCTC can schedule any safety training and/or help customize a job specific training for you and your workers.
- We can schedule training's 7-days a week; day and evenings; where dates and instructor(s) are available.
- Instructor can travel to your company or job-site for safety training and/or inspections.
- Assistance with OSHA Citations

Construction Compliance Training Center (CCTC)

was established by *Compacion Foundation* and *The Hispanic Contractors Association de Tejas* and opened in April 2014 to train, educate, and address occupational safety and health problems within the construction industry.

CCTC strives to provide the highest quality hands-on and classroom training possible. At times the demand for certified workers exceeds training capacity, or is required in remote locations. In these situations, our mobile training providers can quickly provide the required training.

Protect Workers from Exposure to Respirable Crystalline Silica

OSHA will delay enforcement of the respirable crystalline silica standard for construction until September 23, 2017, to conduct additional outreach and provide educational materials and guidance for employers.
